

ALPHA KAPPA PSI
The Professional Business Fraternity

HOWELL + WENDROFF

PROFESSIONAL CENTER

OPEN HOUSE

8001 E. 196th St. | Noblesville, IN 46062

From the Desk of the CEO

Thank you for taking part in such an exciting day in the history of Alpha Kappa Psi - the official naming of the Howell + Wendroff Professional Center.

Reflecting on the friendship and joy celebrated that day, I am reminded of an old proverb:

"One generation plants the trees, and another generation gets the shade."

It's the generosity of donors like you, and the Howells and the Wendroffs, who make it possible for AKPsi to be true to our vision and to help current and aspiring business leaders grow personally and professionally - ultimately sharing in friendships and successes we all aspire to have.

Although a building is often described as "bricks and mortar," it can be so much more. A place for air and light, a place for learning, a place for discourse, a place for quiet, a place for reflection - all of these we have envisioned for the Howell + Wendroff Professional Center.

We hope you are inspired by what the future looks like - as depicted in the renderings that follow.

There is much more friendship and joy waiting to be celebrated among the trees, under the shade, and in the spaces within.

Until we see each other again...

In U— and I—,

C. Steven Hartman, CAE
Miami University '16-Honorary

INTERIOR PERSPECTIVE - COMMON AREA

AKPsi members and friends will enjoy this relaxed professional setting as a comfortable venue to gather with new-and-old-friends-alike to share concepts, ideas, and solutions. This intimate break out space provides several options for small groups and individual reflection. Gatherers have the option of using the open spaces in the design or using the closed conference rooms for a more private environment.

LOWER LEVEL PROPOSED FLOOR PLAN

INTERIOR PERSPECTIVE - LEARNING CENTER

The Learning Center will be home to AKPsi members and friends bringing a spirit of belongingness to retreats and conferences. From volunteer and staff training to immersive multi-day leadership development programs, the Learning Center provides a myriad of meeting-design options and a vibrant, natural-light space to build community, practice leadership skills, and spark creativity. The open concept can be configured to host a group of 150 and can be divided into smaller spaces for facilitation and idea sharing.

architectural + interior

EXTERIOR PERSPECTIVE - FRONT VIEW

The overall footprint of AKPsi will receive an upgrade as reflected in the alterations to the Howell + Wendroff Professional Center facade. The current main entrance becomes understated while the focus moves toward the east side of the building which will lead to the main entrance of the Foyer and the Learning Center. AKPsi members and friends will enter from the east, by way of the Plaza, into a warm and welcoming collage of color and light.

PROJECT SITE PLAN

EXTERIOR PERSPECTIVE - PLAZA VIEW

A glimpse of AKPsi heritage is found in the Plaza, with the landscape encompassing many symbols of the fraternity's founding and heritage. Personalized pavers bring AKPsi members and friends to the east entrance of the Howell + Wendroff Professional Center to the Foyer and Learning Center. The Plaza will be a place of outdoor reflection, rest, and recharging, and as an extension of the Learning Center, will provide a natural creative atmosphere for building community and small-group and personal learning.
